Mr. Kurt Raht, Senior Research Engineer
Consolidated Mining and Smelting Company of Canada, Limited
P. O. Box 2000
Kimberley, B. C.

Dear Mr. Raht:

Your letter of October 1, consenting to the distribution of our report on "The Arsenic Problem at Yellowknife" to your company and to Giant, has just caught up with me. I have therefore written to Dr. W. L. Ball, of our Laboratory in Ottawa, asking him to send you two copies each of the report and the supplemental report. These should reach you within the next week.

Yours very truly,

J. P. Windish,
Industrial Hygienist
