Mr. Kurt Rht,  
Senior Research Engineer,  
Consolidated Mining and Smelting  
Company of Canada Limited,  
Kimberley, B. C.

Dear Mr. Rht:

Would it be possible for you to give me somewhat in advance of the time you usually do, figures covering domestic water at Con and Yellowknife for the spring and summer. I would appreciate very much receiving this information at your earliest convenience as a report had come through that the levels seemed somewhat higher than usual this year.

Yours sincerely,

KK/MV.

Kingsley Kay,  
Chief,  
Laboratory Services,  
Occupational Health Div.
