

C455-10-13.

Laboratory Services,
Occupational Health Division,
200 Kent Street, Ottawa, Ontario.

April 12th, 1956.

Mr. Andrew Thomson,
Comptroller,
Metereological Division,
Department of Transport,
315 Bloor Street West,
Toronto 5, Ontario.

Dear Mr. Thomson:

Our Division is making a study in Yellowknife, N.W.T.
of the arsenic being deposited in the area as a result of
roaster operations of two gold mines there. To assist in
the interpretation of some of our data we should like to have
the monthly rainfall and snowfall figures from 1954 to date.

I should very much appreciate it if you could send me
this information.

Yours very truly,

1/1/

Kingsley Kay,
Chief,
Laboratory Services,
Occupational Health Division.
