

C 455-10-13.

Yellowknife, N.W.T.
July 9th, 1956.

Mr. J.L. Monkman,
Laboratory Services,
Occupational Health Division,
Dept. of National Health & Welfare,
200 Kent St.,
OTTAWA, Ont.

Dear Lloyd:

Five boxes of water and grass samples addressed to the lab., attention yourself, were handed to C.P.A. on Saturday. They are to go Air-freight to Edmonton, then Mail express (probably C.P.A.) to Ottawa. I am not sure when they will leave Yellowknife, as air-freight is sometimes delayed.

If any bottles are broken please wire their numbers so I can collect duplicates.

I have not had time to see the Giant chemist to discuss arsenic analysis with him, but on Saturday the Giant shipping room was packing three more samples for you.

The sample you wired about was from Long Lake.

See you about the 30th.

Regards.

J.P. Windish
