CANADA

May 17th, 1956

Mr. J. P. Windish,
Department of National Health and Welfare,
Laboratory Services,
Occupational Health Division,
200 Kent Street,
Ottawa, Ontario.

Dear Jack:

Yesterday we shipped three samples to your laboratory,
to the attention of Mr. J. L. Monkman, as requested in your letter
or May 3rd.

The samples consist of:

- A. Sample of Cottrell Dust containing 40.22 percent arsenic by our
determination.
- B. A prepared solution containing 239.99 milligrams of arsenic per
liter by our determination.
- C. A water sample containing 0.075 milligrams of ^{As₂O₃} arsenic per liter.
≈ 0.057 " As

Please let me know if you require more material of any
kind.

Yours sincerely,

R. J. C. Tait
Mill Superintendent
