December 4, 1956.

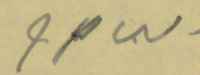

Mr. K. Raht,
Senior Research Engineer,
Consolidated Mining & Smelting Company of Canada, Ltd.,
P. O. Box 2000,
Kimberley, B. C.

Dear Mr. Raht:

Attached is a copy of a memorandum reporting our figures on arsenic collection efficiencies at Con mine, as determined by our stack sampling tests in July of this year. I am also sending a copy to Mr. Colethorpe.

I believe Dr. Ball sent you two copies each of the Yellowknife report and supplemental report. If you need any more please let me know.

Yours very truly,

J. P. Windish,
Industrial Hygienist.

Mr. J. Colethorpe,
Con Mine,
Yellowknife, N. W. T.

Dear Jay:

Attached is a copy of a memorandum reporting our figures on arsenic collection efficiencies at Con, as determined by our stack sampling tests in July of this year. I have sent another copy of the memo to Mr. Raht.

I'll be in Yellowknife from December 6th to 15th and shall be in to see you sometime during this period.

Yours sincerely,

J. W.
