

Meeting:

April 10/81

Don Zualdo, Tony Desanto & J/S
9:40 - 10:25

Discuss current situation & letter
from Osmer of March 26/81.

Difficult to commit as requested
because of potential plan to regrade
the product - Zualdo feels bad about
situation as he's gone thru this
before.

Not college involvement discussed. That
seems to be promising too much & getting
their expectations up.

Don will draft reply & prepare memo
for Board meeting.

I told them since going for hearing
& expanding activities & may need them
at Board meeting.

4/5

agenda: FETB, MPR & D - discuss further
& MPR pushing for drilling only at next
Directors' meeting - then go for funding.
