**COMMENTS OR INSTRUCTIONS:**

R.P.C. has provided me with a brief description of Rockwell's hi-temp gas  
filter in their Colorado plant. As you mentioned, this seems to be very  
similar to our application and a positive report of a plant visit should  
satisfy our sceptics.

Have you had any success in arranging such a visit by 2 or 3 representatives  
from our company?

Best wishes for the New Year.  
K. Morton
