Mr. D. J. Emery  
Mine Manager  
Giant Yellowknife Mines Ltd.  
YELLOWKNIFE, N.W.T.    X0E 1H0

Dear Mr. Emery:

On May 23 we installed two impinger apparatus beside the particulate sampler at the bunkhouse site at your mine. These installations do not make as much noise as the original sampler but as all three operate simultaneously there is an accumulative effect. Another point is that these machines will be operating for longer time periods.

If there is any complaint by the men residing there, please inform us at once and we will relocate the units to a more suitable location.

Yours truly,

H. G. Chambers  
Project Engineer
