Mr. D. J. Emery, President  
Giant Yellowknife Mines Limited  
Yellowknife, NWT  
CANADA X0E 1H0

Dear David:

I sincerely enjoyed meeting you in Yellowknife, and I am encouraged about the possibility of our developing an economically practical program to transport arsenic trioxide from Yellowknife to Conley, Georgia. There is a great deal of logistical information to assemble at this point, and we are working aggressively to accomplish this at our end. Very soon we expect to have formal quotes on transportation charges which, when we receive them, we will pass along to you.

We are also investigating leases on possible transfer sites in the Enterprise/Hay River area.

Tom Beatty has received formal quotes from Sprout-Waldron, and he will be passing these along to you.

We are anxious to learn the impressions you developed from NWT Government officials about this arsenic transfer operation and would appreciate your advice on the various types of permits that will be required.

You expressed interest in obtaining additional information on Koppers. I have enclosed a small package and am also sending a duplicate package to Pat Raleigh.

I look forward to seeing you again in the near future.

Very truly yours,

*John D. Hite*
