

FALCONBRIDGE

Memorandum

Date: March 8, 1984

To: D.J. Emery

Copies to:

From: P.J. Raleigh

Subject: Simon Carves (Africa) Ltd.

While in South Africa I had meetings with Fletcher of Simon Carves on the proposed agreement. They have provided me with a modified agreement which is essentially in compliance with your telex of Feb. 17, 1984. Please review this and we can discuss any items that may be of concern.

I also had discussions with members of the technical and executive staffs of Rand Mines Ltd. who are currently interested in roasting arsenical gold ores from a new mine in South Africa. Fletcher is doing his best to sell them on the Giant approach. I also put in a few good words.

Rand Mines is proposing to send samples to Lakefield for tests very soon and also wishes a visit to Giant. Simon Carves will arrange as necessary.
