

Notes of a Phone Call
From Bob Cathro, Vancouver
December 13, 1978

He called me on behalf of John Bruk who was off sick. I explained that John Parker couldn't make it nor any of his senior people but that he was interested in having someone at a senior level of the Territorial Government on the committee.

Cathro didn't think it was all that critical that someone from the Territorial Government be at the meeting and that I could report back to Parker on progress.

Cathro noted that it was the Yukon Chamber that brought up the desirability of having representation from both Territorial Governments. Bruk had agreed to this.
