

Notes of a Phone Call  
To John Parker  
December 11, 1978

I phoned John to see if he could make the meeting scheduled for December 15th. He said he was unable to be there himself and would not be able to make any of his Directors available and it is unlikely that any of the Executive Members could attend due to meetings here in Yellowknife and also the arrival of the Minister on the 18th.

John wants to have a senior member of Territorial Government on the Committee rather than someone at the lower level. He stated that if Bruk really insisted, he could probably make someone available, probably the Assistant Director of Economic Planning.

I attempted to call Bruk but he was not in so I left him a message to call back.
