of Canada Ltd.  
Chapman Camp, B. C.

Dear Mr. Raht:

Your letter of June 2nd and the six samples of water arrived June 6th. I will have these done for you as soon as possible. If you wish to continue sending samples to me routinely, I will be glad to run them as received.

In connection with standard technique, we make no pretence of infallibility, and in our turn, would be glad to hear from you as to the method you use.

I shall be writing you again when the tests are completed. In closing, please feel free to call upon us for any assistance which we may be able to give.

Yours very truly,

J. L. Monkman  
Chemist
