Jackson Building,  
Ottawa, Ontario,  
October 18, 1950.

Mr. R. A. Gibson,  
Director,  
Development Services Branch,  
Department of Resources and Development,  
Ottawa, Ontario.

Dear Mr. Gibson:

Re: Arsenic Disposal, Yellowknife, N.W.T.

Reference is made to your letter of September 25 concerning the delay in installing Cottrell equipment at the Giant Yellowknife. It is most unfortunate that this equipment cannot be installed and in operation until September, 1951. This will mean that large quantities of arsenic will continue to be deposited in the area, and I can only repeat the apprehension which we have expressed in the past. I hope that every effort will be made to have this equipment in operation as soon as possible.

Yours very sincerely,

KCC/OH

K. C. Charron, M.D.,  
Chief, Industrial Health Division.
