Mr. Kurt Raht,
Consolidated Mining & Smelting
Company of Canada, Ltd.,
Chapman Camp, B.C.

Dear Mr. Raht:

Thank you for your letter of September 13th. I was very interested to note the reduction in the values for Pud Lake. I think that some of the Pud Lake arsenic must be moving over into Kam, don't you? We will look forward to the report which you are preparing.

With renewed thanks.

Yours very truly,

Kingsley Kay,
Chief,
Industrial Health Laboratory.
