

OFFICE OF THE
DEPUTY COMMISSIONER

ADMINISTRATION
OF THE
NORTHWEST TERRITORIES
CANADA

OTTAWA, 14th February,
1950.

Dear Dr. Charron:-

I have received your advice concerning the arsenic hazard at Yellowknife and the suggestions of responsibilities by each authority to be exercised in a continuing survey to minimize the health hazard.

Letters detailing the instructions have been sent to Dr. Stanton, Mr. Jewitt and Mr. Muir. Copies are attached for your information.

I would like to thank you very kindly for your co-operation and advice on this important subject. I feel that by strict adherence to the regulations imposed we should be able to safeguard the health of residents in Yellowknife from effects of arsenic emanating from roaster operations.

Yours very truly,

Attach.

R. A. Gibson,
Deputy Commissioner.

Dr. K. C. Charron,
Chief, Industrial Health Division,
Department of National Health and Welfare,
Ottawa, Ontario.

KCC

I think that by selectively quoting from your letter of Feb 11 he has tried to give the impression to Mr Jewett that we agreed to the Con method of disposal which would imply a change in

stayed by the Department and possibly informate Grant Yellowknife who were denied Cons method (K)
