Mr. J. L. Monkman,
Chemist,
Industrial Health Laboratory.

May 26, 1951.

Chief, Industrial Health Laboratory.

Arsenic Determinations

In view of the fatality at Yellowknife which we discussed on Wednesday of this week, would you kindly proceed to finish up the analyses of waters on hand at the earliest possible convenience. I am sending you herewith three further waters covering the period during which the fatality occurred.

K.K.
