March 14, 1950.

R. A. Gibson, Esq.,  
Deputy Commissioner,  
Administration of the North West Territories,  
Ottawa, Ontario.

Dear Mr. Gibson:-

I delayed replying to your letter of February 13th, with reference to the survey for Arsenic, until I discussed the methods to be employed with Dr. Stanton and we had made definite plans for the proposed survey.

You may be assured that we will undertake the measures outlined in your letter.

I might say that an analysis of tap water here gave a maximum of 0.006 Milligrams per liter which was the same as that obtained from the sample taken by Mr. Christie in December last. ✓

Yours sincerely,

(sgd.) A. K. Muir

A. K. Muir  
General Manager.
