XXXXXX

Ottawa, 6 July, 1951.

J.G. McNiven, Esq.,
 Mines Manager,
 Hegus Mines Limited,
 Yellowknife, N.W.T.

Dear Jock:

I took the liberty of corresponding with
 Dr. Dufresne, Deputy Minister of Mines, Province of Quebec,
 concerning the proposals for the control of arsenic fumes
 at the Hegus Mine. As you know, Dr. Dufresne has had con-
 siderable experience in the handling of similar problems at
 mines in his province.

I am sending you herewith a copy of a recent
 letter received from him which I am sure you will find worthy
 of serious consideration in dealing with this problem.

Yours very truly,

G.E.B. Sinclair,
 Director.
