Mr. P. N. Pitcher
Mine Superintendent
Giant Yellowknife Gold Mines Ltd.
Yellowknife

Dear Sir:

This is to acknowledge your letter dated July 3rd, 1950. The samples of water and vegetation have been received and I will be able to give you the results on water in a few days.

I will expect to receive further samples of water and vegetation from you some time next week. In connection with water samples, I would suggest that they be sent by the quickest convenient method as I suspect that the arsenic content of the water changes in the container due to surface effects, adsorption, etc.

Very truly yours,

J. L. Monkman
Chemist
