

OLIVER L. STANTON, B.A., M.D.
YELLOWKNIFE
N.W.T.

February 16, 1950.

Dr. Charron,
Department of National Health & Welfare,
Ottawa.

Dear Dr. Charron,

I am sending you latest report on samples
which I reported by telegram, at our last meeting.

<u>Urine</u>	<u>Arsenic</u> <u>Parts per million</u>
Beveridge	0.12
Manchur	0.32
F. LaPlante	0.08

<u>Water</u>	<u>nil</u>
Con Cook House	nil ✓
Giant Cook House	nil ✓
Red Cross Hospital	0.11 ✓

I shall be taking further specimens from
time to time and can send you the results. These
are all done by the Provincial Analyst, Mr. James
A. Kelso, Edmonton, Alberta.

Please send me the proposed regulations
for control as soon as possible.

Kindest personal regards,

Yours very truly,

Oliver L. Stanton
O.L. Stanton M.D.

*Regulations just received.
Thank you. S.
/bm*

Dr. Charron

*It will be interesting to hear what this poor man
does with the ugly problem. These values need data on
locations if they are to be useful in keeping a record of events. They
certainly are disturbing.*
