LANDS DIVISION

Ottawa, Ontario,
20 October, 1950.

Dr. K. Kay,
Chief, Industrial Health Laboratory,
Dept. of National Health & Welfare,
Ottawa, Ontario.

Arsenic Situation - Yellowknife, N.W.T.

Your letter to Mr. Christie has been received,
and samples of vegetables have been requested from the
Mining Recorder at Yellowknife.

No doubt you realize that it will be impossible to
procure samples as outlined in your letter, because
winter has commenced in Yellowknife and market gardens
are now covered with snow, however, samples from store-
houses have been requested and will be sent to you from
Yellowknife.

Mr Rogers

G.E.B. Sinclair

G.E.B. Sinclair,
Chief, Lands Division.
