Department of National Health & Welfare,  
Ottawa, Ont.

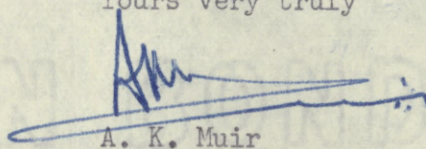

Dear Doctor Kay:

As discussed with you here yesterday, we are enclosing  
copies of the following:-

1. Monthly Wind Roses, for the year 1948.
2. Monthly temperature data from January 1945 to  
October, 1949.
3. Monthly Precipitation Data from April, 1947 to  
October, 1949.

I might say that these data were obtained in connection  
with our study of the effect of a higher stack on the dispersal  
of fumes from our Roaster Plant.

Yours very truly

A. K. Muir
