OFFICE OF THE DIRECTOR

OTTAWA, March 2nd, 1951.

Dr. K. Kay,  
Chief, Industrial Health Laboratory,  
Department of National Health & Welfare,  
OTTAWA, Ontario.

Dear Dr. Kay:-

RE: Arsenic Problem - Yellowknife, N.W.T.

I am enclosing for your information copies of correspondence received from A. K. Muir, General Manager, Giant Yellowknife Gold Mines Limited in which he outlines a proposal by his Company for the underground storage of dry arsenic tri-oxide.

As you know Mr. Christie is in Yellowknife at the present time and you will note that he has discussed this matter with Mr. Muir. He intends to have a further discussion on the subject with Dr. Kurt Raht of Kimberley, B. C. before he returns to Ottawa late this month.

As soon as he returns he will get in touch with you. In the meantime, if there is any further information which you desire from Mr. Muir please advise me in order that we may communicate with him while he is in Toronto.

Yours very truly,

G. E. B. SINCLAIR,  
Director.
