Yellowknife, N.W.T.
November 10th, 1953.

Mr. J.P. Windish,
Occupational Health Laboratory,
200 Kent Street,
Ottawa, Ontario.

Dear Jack:

I have your letter dated November 2nd referring to your proposed trip to Yellowknife on November 25th. I will not be in Yellowknife at that time as I expect to arrive in Ottawa about November 22nd, however I have phoned Giant regarding the gallon jars for snow samples and if you will get in touch with Jim St. Marie in the Cafeteria at the Giant Mine, he is saving these jars for you. The Hudson Bay Store have sufficient one quart sealers on hand. My truck will be made available to you for taking these samples. Get in touch with Jim Whyard on arrival here and he will turn the key over to you.

Kindest regards.

S. Hemulos,
Mining Inspector
