Arsenic in Stack Samples - Yellowknife

Twenty samples taken on Whatman thimbles have been tested for arsenic with results as follows:

1	6.90	11	1.24
2	2.38	12	1.03
3	5.27	13	0.79
4	4.67	14	0.69
5	5.03	15	0.36
6	4.61	16	0.21
7	4.54	17	1.79
8	4.87	18A	0.97
9	5.32	18B	1.19
10	0.22	19	0.46

The above figures are the total amounts of arsenic found in each thimble expressed in grams of arsenic (As).
