

OTTAWA, September 29, 1953.

Mr. C. K. LeCapelain,
Chief, Lands Division,
Department of Resources & Development,
238 Sparks Street,
Motor Building,
O T T A W A, Ontario.

Dear Mr. LeCapelain:

We are not yet satisfied that arsenic contamination at Yellowknife has reached a consistent low level and we consider it necessary to recommend that the situation be surveyed again in 1954. In these circumstances it would be appreciated if funds in the sum of \$2000.00 could be provided for this work in the fiscal year 1954-55.

Yours sincerely,

KK/MV.

Kingsley Kay,
Chief,
Occupational Health Laboratory.
