Subject

Yellowknife Project

Work on this project has reached the point where we should consider preparation of a progress report. Additionally, a joint review of further necessary investigation would now be desirable. With this in mind, I would like to constitute the following group to undertake this task.

Yellowknife Project Group

Dr. Duncan Henderson  
Dr. Harold MacFarland  
Mr. Lloyd Monkman  
Mr. C.R. Ross  
Mr. J. P. Windish

I will undertake to coordinate and to this end suggest we have a short session each Wednesday morning at 10.00 in the Seminar Room at 200 Kent Street.

As you have been directly associated with the investigational work it would be appreciated if you could join in the preparation of the report and the discussions of future investigations.

KK/cp

Chief,  
Industrial Health Laboratory.
