Dear Mr Connell:

**Re: Continuous Emission Monitoring Code of Practice**

The Government of the Northwest Territories will not be developing its own Code of Practice for Continuous Emissions Monitoring. Any systems installed in the Northwest Territories that meet the United States Environmental Protection Agency's 40 CFR 60 or equivalent requirements will be considered suitable for GNWT regulatory purposes. Such suitability would only be subject to review when the US EPA changes its requirements.

Sincerely,

Emery Paquin  
Director  
Environmental Protection Service
