Dear Mr. Smith:

Re: Titus Alloofoo Letter to Mr. Kevin O'Reilly - Giant Emissions

Giant Mines would appreciate a copy of any progress information as a result of the aforementioned investigation. The items we would specifically want to review are as follows:

- Stack sampling results by Western Research for SO₂ and Arsenic.
- 1990 data from Yellowknife W.A.P.S. station.
- Monitoring results of SO₂ at the 17 local ambient stations.
- Report from Forestry for 1991 on vegetation stress.
- Aerial photographs in infra-red colour of the Giant area.

Thank you for your continued co-operation with Giant. If we can assist you at all in this matter, please do not hesitate to call me at 873-6301, extension #250.

Yours Sincerely,

ROYAL OAK MINES INC.

J. Halpern
Mill Superintendent and
Environmental Officer
