Hi Temperature Gas Filtration Phase One

Dear Kent;

I am returning your invoice 90-08-08 for \$1543.48. Unfortunately we are unable to accept or process the invoice. SC 265478 is completed and closed.

Your letter of April 6, 1990 states that the work is completed and that the service contract 265478 is complete. Your invoice #04-02-April 10, 1990 was received and paid upon the statement from the Scientific Authority that Phase One was complete.

Clause 2(e) of the Contribution Agreement states that the final claim must be made within three months of project completion or by April 15, 1990 whichever is earlier.

I am holding on to the invoice #90-08-07, costs to date on SC306701 Hi-Temperature Gas Filtration Phase 2, 3, 4, until I have obtained all the signatures on the Contribution Agreement. Please note that the Contribution Agreement states that (Clause 2 (d)) an interim payment must be between 30% and 50% of the total Agreement. Invoice #90-08-07 is for 94% of the total. Is it the final invoice? Thank you.

Sincerely Yours

Martin Irving  
Manager, Minerals
