MEMORANDUM

To ..... Kent Morton .....

Date ..... May 18, 1979 .....

Copies To L. Connell; D. Emery; P. Raleigh; F. Pickard

Ref. ....

From ..... W.A. Moore .....

Subject ..... Cominco Participation - Arsenic Upgrading .....

1. Dave MacPhail has changed his mind somewhat. They will ask their man Kewitt (Cuit?) in Trail to put down on paper the area or areas in  $As_2O_3$  treatment where he feels he could make a contribution.
2. When Larry has returned from Pennsylvania, and has time to report on his findings, and we can draw up a flowsheet, then we can get together with Con, see Kewitt's list, and decide where he could be asked to help.
3. Nothing from Con on their idea(s) for an agreement re their materail.
4. Nothing done yet on a second letter to the Water Board - awaiting final flowsheet and final approval from Directors.
