FALCONBRIDGE NICKEL MINES LIMITED

MEMORANDUM

DATE: Feb. 4, 1980

TO: P. J. Raleigh

RG-106

COPIES TO: HTB, FGTP ~~WPM~~ DJL PZ

FROM: J. F. Jackson

SUBJECT: Fuming of Arsenic From Cottrell Dust

The proposed process and pilot plant for the fuming of arsenic trioxide from cottrell dust has been reviewed and serious doubts and concerns raised as to its operability and viability. These concerns have been reviewed with H. T. Berry and F. G. T. Pickard who also concur. It is recommended that no further work be carried out on the fuming project.

ask
If you have any questions I would be pleased to discuss them.
