RE: Arsenic Trioxide

Dear Mr. Wegener:

Enclosed is Power of Attorney from Koppers Company, Inc., duly executed and certified on February 4, 1981. This document pertains to our importation of Arsenic Trioxide from Giant Yellowknife Mines Ltd., Northwest Territories, Canada.

Arsenic Trioxide is a white powder which is used to produce Arsenic Acid. The acid is, in turn, mixed with other ingredients to make wood preservative.

The D.O.T. Shipping Name is Arsenic Trioxide, Solid. It is classified as a Class B Poison.

The carrier, H. M. Trimble & Sons Limited (Trimac Transportation System), transports this commodity in bulk hopper trailers. The approximate net weight per load is 42,000 pounds. Scale tickets will be provided by the carrier's driver.

The Schedule "B" number for Arsenic Trioxide is 417.6200 and current tariffs show it is entered into the United States from Canada, duty free. The declared value is seven cents per pound, U.S. funds.

The exporter has been requested to provide a "Pro Forma" invoice with each shipment. This office will forward copies of commercial invoices to you as received.

The Canadian broker, Border Brokers Limited N. Portal, Saskatchewan, will prepare the required export documents and U.S. Customs Form 5515; Special Customs Invoice, which will be sent to you as each truckload arrives.
