

Phone Call to C&A Moore from Toronto.

May 22/79

Harry Connel & two others from Lab & will  
leaving tonight for Warren Penn. to do  
XIIization tests at Strother Wells. Will be  
there for a week.

Connell can stop over in Toronto on way  
back if anything to discuss. I agreed  
that he should

He will 200 lbs at present & so that he  
could leave in Toronto.

Discussed Water Board - C&A in  
favor of waiting till we have flow  
sheet before approaching the Board - a  
"chicken & egg situation".

Don't think Water Board will hold us  
up - see letter from Sisking dated June 11th.
