Subject .... Upgrading of Con. & Giant Arsenic Trioxide Dust - By Fuming Method.....

Further to Mr. Fekete's report on the progress of the lab work to date, and Kent Morton's memo of August 27th, it is proposed to set up a meeting in Yellowknife on September 17th to discuss the report and to plan how to employ the cooperative efforts of both Cominco's and Falconbridge's metallurgical laboratories to assist in the development of plans for piloting the process.

The meeting would be held in the Giant office in Yellowknife, 8th Floor, Precambrian Building at 0930 hrs, September 17th.

W. A. Moore  
General Manager
