Mr. D. J. Emery, Manager
Giant Yellowknife Mines Ltd.
Yellowknife, N.W.T.

Dear Mr. Emery:

After consultation with yourself and Mr. Andy Young, our air monitoring section has installed the air monitoring device for a 10 - 12 week period on top of the entrance to Bunkhouse #8.

We would appreciate it if you would post a short memo informing your employees of the purpose of this delicate instrument and requesting that they do not tamper with it.

Sandy Lewis asked me to advise you that he will be in touch with you in the near future to arrange an informal meeting. He would like to meet you and attempt to clarify our position within the Department of the Environment. I hope that the organization charts that you received were of help, but perhaps you have more questions to ask.

Your co-operation has been greatly appreciated and we look forward to our continuing association.

Yours truly,

Howard Chambers

H. Chambers, Project Engineer
Environmental Protection Service
