Mr. D. Emery  
Mine Manager  
Giant Yellowknife Mines Ltd.  
Yellowknife, N.W.T.

Dear Mr. Emery:

Further to your informal conversation with Dr. Ron Wallace, I would like to request a meeting with you and your staff on the topic of air emissions from Giant Mine. As you know, the Environmental Protection Service of D.O.E. administers the Clean Air Act. It is in this connection that we have been monitoring SO<sub>2</sub> and Arsenic emissions in the vicinity of your mine for some time.

I think it timely that your staff as well as District and Regional personnel of D.O.E. discuss results of our monitoring programme to date as well as any problems associated with the monitoring of the emissions. I would see such a discussion as being an informal, wide-ranging but thorough review of findings and progress.

I would appreciate it if you could suggest several possible dates in October and/or November which would be convenient for you and your staff. I will endeavour to finalize the details.

Yours truly,

C. A. Lewis  
District Manager
