Mr. D. J. Emery, Manager
Giant Yellowknife Mines Ltd.
Yellowknife, N.W.T.

Dear Mr. Emery:

In response to the interview with you on March 6, 1973 regarding the installation of an air monitoring device for arsenic detection, this is a formal request for permission of such an installation to be placed on your property.

The requirements for the apparatus is a flat roof surface, capable of supporting 300 pounds (apparatus and man), a power outlet, and permission for servicing three times weekly (about 15 minutes per service call.) The employee servicing the device will be Greg Stirling, telephone 873-5731.

This installation is planned for a total period of 10 - 12 weeks, expected to finalize mid-May. Also, we will assume all responsibility for our employee, excusing your company of all liability for our employee on your property.

As requested, we are including our organizational chart and a news release concerning the terms of reference for Mr. C. A. Lewis, District Manager, Environmental Protection Service, N.W.T..

Yours truly,

H. Chambers, Project Engineer
for C. A. Lewis, District Manager
Environmental Protection Service
