SUBJECT

WORKING ON ARSENIC LINE  
UNDER PRESSURE

SEND TO G. HALVERSON

MESSAGE

AS PER OUR DISCUSSION SUGGEST WE IMPLEMENT THESE  
PROCEDURES

- (1) WAIT 4 HRS BEFORE DISCONNECTING LINE <sup>THE TIME NOT</sup> u/g. <sup>KNOW AS YET</sup>
- (2) VENT OFF EXCESS AIR THROUGH T. WITH A FILTER  
INSTALLED TO AVOID EXCESS DUSTING.
- (3) SHOULD WE INSTALL A VALVE NEAR THE STOP?
- (4) MASKS OR EQUIVALENT DUST PROTECTION TO BE WORN  
BY u/g EMPLOYEES?

REPLY

Apparently the arsenic stop pressurizes to 5 psi
