

FALCONBRIDGE

Giant

Memorandum

Date: May 28, 1984
To: K. Blower
Copies to: D.J. Emery
From: P.J. Raleigh
Subject: Dam #11 (South Dam)

During a visit to Giant last fall, some difficulties were noted by myself and Fred Matich in finding sufficient clay and sand to construct the subject dam. The enclosed proposal outlines some thoughts put together by Geocon on the use of existing tailings for increasing the dam height.

Please review the proposal and at a date in the not too distant future we can determine if your staff feels there is any merit in pursuing the subject further.
