re: CPHA Forum on Arsenic in the Yellowknife Area
date: April 17, 1996
pages: 1, including cover sheet.

Based on the response from Miriam Wideman, I would recommend against participating in the Forum on Arsenic in the Yellowknife area. I suggest you send the attached response. Providing any reason for our decision will only be used against us.

It would appear that RYO is being set up as the target of this forum. The very fact that a representative from the Con Mine has not been invited makes this clear.

I do not think anything positive will come of our attending. I believe that the outcome will only be made worse by our attendance. I consulted with M.K. Witte and she is in agreement with this conclusion.

Please give me a call if you want to talk about this further.
