Lease or Purchase a HyPulse™ Filter for Pilot Studies or Have Us Do Them for You.

One good test is worth a thousand estimates of your separation needs—and to insure your needs are met, Mott offers a range of test options for lease or sale.

- HyPulse™ Disc Test Apparatus
Feasibility and preliminary performance data.
- HyPulse™ Benchtop Filter
Single element HyPulse™ filter, scaled down for benchtop studies.
- HyPulse™ Pilot Filter
With a single, full-scale element the HyPulse™ Pilot Filter provides assured scale-up data.
- Automated HyPulse™ Pilot Filter
The HyPulse™ Pilot Filter complete with an automatic controls package.

Complete installation and operating instructions are provided by Mott, along with startup assistance and support in the test evaluation.

Or, if you wish, we will conduct the entire testing program for you in our Customer Service Laboratory. Detailed engineering reports and process recommendations are furnished upon test completion.

Prove the HyPulse™ advantage to yourself. Contact Mott to arrange a test program in your plant or ours, then plan your HyPulse™ filter system based on hard, reliable data.

*36" element.
2 - 2 3/4" Ø*
