Royal Oak Mines Inc.
PO Bag 3000 Stn Main
Yellowknife, NT
X1A 2M2

ATTENTION: Dave Anthony

Dear Dave:

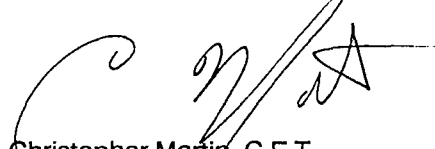

SUBJECT: Arsenic - Continuous Measurement in Stack

Rosemount Instruments Ltd cannot supply Royal Oak Mines with an arsenic analyzer for monitoring arsenic in their roaster stack. Rosemount is not aware of any existing technology that can provide continuous measurement of solid arsenic in a stack.

If you have any questions or comments, please do not hesitate to call me at (403) 951-2860.

Sincerely,

ROSEMOUNT INSTRUMENTS LTD
