OBJET

Environmental Study -
Yellowknife (University of Iowa)

SECURITY - CLASSIFICATION - DE SÉCURITÉ

OUR FILE - N/RÉFÉRENCE

(M14)

YOUR FILE - V/RÉFÉRENCE

DATE

March 12, 1975

Thank you for your memo of February 17th, 1975. Please accept my apologies for the delay in replying. I have asked for this material to be reviewed and hoped to contact you in the near future regarding opinions in this office about it.

The immediate problem relating to environmental contamination in Yellowknife relates to arsenic. Therefore, the existing program should be maintained but it does appear very likely that further studies on other heavy metals will have to be done in the near future. Thank you for referring this matter to me.
