SECURITY - CLASSIFICATION - DE SÉCURITÉ
OUR FILE - N/RÉFÉRENCE 151-1-5 (N3)
YOUR FILE - V/RÉFÉRENCE
DATE February 17, 1975

I attach photocopies of a report on a small but apparently very sophisticated survey carried out in the Yellowknife area about 1970-71.

There are also a series of letters and memoranda between the originators of the report and the Department of National Health and Welfare, Department of Environment and the City of Yellowknife.

Although it is noted that the last of these letters was addressed to the Board of Health for the City, which assumedly involves this Region, this is the first time that copies of this correspondence have been received here.

Furthermore, it is difficult to judge from the correspondence whether this information ever percolated down to operational level at Branch H.Q.

The correspondence was referred to us by Dr. Ron R. Wallace, Department of Environment.

We would appreciate your comments.
