CHECK SURVEY RECORD

Shaft "B" SHAFTLevel 575 LEVEL

Heading _____

B.S.	Sta.	Angle	Azimuth	Bearing	Hor. Dist.	F.S.	Elevation	Rail	Northing	Easting	Date	Ent.	Ckd.	Book
<p>This Check Survey was done in Dec. 1958 and is to be used in all cases in the future where check survey azimuths, co-ordinates and elevations are necessary. You will note the discrepancy between stations of this check survey and preceeding ones is fairly large. This is due to an incorrect tie-in in the Shaft Plumbing, between 750 Level and 575 Level. This Shaft Plumbing job was repeated in Dec./58 and all figures on this sheet are a result of this Check Survey. (Shaft Plumbing)</p> <p>Care must be taken when drawing up new layouts as this new check survey has caused the 575 Level (B-Shaft) and work taken from stations on the 575, to shift.</p> <p>THE ORANGE ELEVATIONS ARE FROM EITHER ORIGINAL SURVEY OR CHECK SURVEY '11' S.P.I. (25-63)</p>
