

File 451-6-25

Mr. A. J. Reeve,
Acting Director,
Northern Economic Development Branch,
Department of Indian Affairs and
Northern Development,
Ottawa 4, Ontario.

[illegible]

These problems will certainly require improved and effective communications and collaboration interdepartmentally - even more so now that the new Department of the Environment is being created. As you may know, approximately 50% of the Environmental Health activities of this Department have been transferred to the new Department although the units will probably continue to occupy space here for another year.

Yours sincerely,

P. M. Bird
P. M. Bird, Ph.D.,
Senior Assistant Deputy Minister
(Health).
