December 1, 1969.

REPORT ON YELLOWKNIFE ARSENIC SURVEY.

Again we are being prodded for Dr. De Villiers' report on the Arsenic Survey carried out in Yellowknife, 3 years ago. Recently Dr. G. Butler, Regional Director, Northern Region, was interviewed by both the local press and the C.B.C. who want to know when the full report will become available. In addition, the Commissioner and the Mayor of Yellowknife have been making enquiries.

We are grateful for the preliminary report you supplied but would very much appreciate the final report as soon as it becomes available.
